: OF DISCIPLINE

This matter was opened to the New Jersey State Board of  
Medical Examiners upon receipt of information which the Board has  
reviewed and on which the following findings of fact and  
conclusions of law are made;

FINDINGS OF FACT

1. Respondent, Kumar R. Mullangi, M.D., License No. MA59953,  
is a physician licensed in the State of New Jersey and has been  
licensed at all times relevant hereto.

2. On or about September 21, 2006, the Board of Medical  
Examiners for the State of Iowa (the "Iowa Board") entered a  
Settlement Agreement and Final Order (the "Iowa Order") wherein  
Respondent agreed to voluntarily surrender his license to practice

**CERTIFIED TRUE COPY**

medicine in the State of Iowa and not seek reinstatement of said license for at least one (1) year from the date of the Order. Prior to seeking reinstatement of his Iowa license Respondent must complete a comprehensive competency evaluation, a comprehensive physical and neuropsychological evaluation, and continuing medical education in specific areas as recommended by CPEP. Pursuant to the Iowa Order, Respondent agreed that if his license is reinstated he will be placed on indefinite probation and be subject to practice restrictions. Respondent is prohibited from performing laparoscopic surgery until he demonstrates to the Iowa Board that he is competent to perform such surgeries in a safe and skillful manner and that he has received written approval of the Board. The action taken by the Iowa Board is based on Respondent's admission that he engaged in inappropriate conduct and inappropriate medical practice. Specifically, Respondent admitted that he performed laparoscopic surgery without obtaining training and hospital privileges. He further admitted performing robotic surgery without obtaining the necessary training and hospital privileges. Respondent also admitted inappropriately permitting staff to perform medical services for which they were not qualified and/or appropriately trained, and inappropriately allowing a minor to perform medical treatment. Respondent also inappropriately demonstrated a pattern of failing to provide patient records to other healthcare providers at the request of the patient and to a

pattern of discouraging patients from obtaining second opinions and treatment from other healthcare providers. Lastly, Respondent admitted inappropriately failing to maintain accurate, timely, and complete medical records. An audit of Respondent's patient records demonstrated that approximately one-third (over 5,000) of Respondent's active patient medical records had not been completed for a period of up to more than four (4) years. By entry of the Order, Respondent was issued a citation for engaging in professional incompetency and practice harmful and detrimental to the public. Respondent was issued a civil penalty in the amount of ten thousand dollars (\$10,000).

#### **CONCLUSIONS OF LAW**

---

1. The above disciplinary action taken by the sister state of Iowa provides ground to take disciplinary action against Respondent's license to practice medicine and surgery in New Jersey pursuant to N.J.S.A. 45:1-21(g), in that Respondent's surrender of licensure in the State of Iowa is tantamount to a suspension or revocation of licensure.

2. The above disciplinary action taken by the sister state of Iowa provides ground to take disciplinary action against Respondent's license to practice medicine and surgery in New Jersey pursuant to N.J.S.A. 45:1-21(d), in that Respondent has engaged in repeated acts of negligence, malpractice or incompetence.

3. The above disciplinary action taken by the sister state of Iowa provides ground to take disciplinary action against Respondent's license to practice medicine and surgery in New Jersey pursuant to N.J.S.A. 45:1-21(e), in that Respondent has engaged in professional misconduct.

#### **DISCUSSION**

Based on the foregoing findings and conclusions, a Provisional Order of Discipline (the "POD") suspending Respondent's license to practice medicine and surgery in the State of New Jersey, until such time when Respondent can prove to the satisfaction of the Board that he has an active, unrestricted license to practice in the State of Iowa, was filed on or about October 19, 2006. A copy was forwarded to Respondent's last known address, on or about December 15, 2006, at 400 South Broadway Street, Burlington, Iowa 52601 by regular mail and certified return receipt. The POD was not returned by the Post Office as undeliverable. The POD was subject to finalization by the Board at 5:00 PM on the 30<sup>th</sup> business day following entry unless Respondent requested a modification or dismissal of the stated Findings of Fact or Conclusions of Law by submitting a written request for modification or dismissal setting forth in writing any and all reasons why said findings of fact and conclusions of law should be modified or dismissed and by submitting any and all documents or other written evidence

supporting Respondent's request for consideration and reasons thereof.

Although the record reflects that the POD was served upon Respondent at his last known address in Iowa, no response has been received to date. Accordingly, the Board considered the matter and determined that further proceedings were not necessary and that the POD should be made final.

ACCORDINGLY, IT IS on this 13th day of August, 2007,  
ORDERED THAT:

1. Respondent's license to practice medicine and surgery in the State of New Jersey is suspended until such time as Respondent's license to practice medicine in the State of Iowa is  
~~fully reinstated without any restrictions.~~

2. Prior to resuming active practice in New Jersey,  
Respondent shall be required to appear before the Board or a committee thereof, to demonstrate fitness to resume the practice of medicine, to show that Respondent has satisfied all requirements of any Iowa disposition and is reinstated to the practice of medicine in that State without any restrictions. Any practice in this State prior to reinstatement shall constitute grounds for the charge of

unlicensed practice. In addition, the Board reserves the right to place restrictions on Respondent's practice should Respondent's license be reinstated.

**DIRECTIVES APPLICABLE TO ANY MEDICAL BOARD LICENSEE  
WHO IS DISCIPLINED OR WHOSE SURRENDER OF LICENSURE  
HAS BEEN ACCEPTED**

**APPROVED BY THE BOARD ON MAY 10, 2000**

All licensees who are the subject of a disciplinary order of the Board are required to provide the information required on the Addendum to these Directives. The information provided will be maintained separately and will not be part of the public document filed with the Board. Failure to provide the information required may result in further disciplinary action for failing to cooperate with the Board, as required by N.J.A.C. 13:45C-1 et seq. Paragraphs 1 through 4 below shall apply when a license is suspended or revoked or permanently surrendered, with or without prejudice. Paragraph 5 applies to licensees who are the subject of an order which, while permitting continued practice, contains a probation or monitoring requirement.

**1. Document Return and Agency Notification**

The licensee shall promptly forward to the Board office at Post Office Box 183, 140 East Front Street, 2nd floor, Trenton, New Jersey 08625-0183, the original license, current biennial registration and, if applicable, the original CDS registration. In addition, if the licensee holds a Drug Enforcement Agency (DEA) registration, he or she shall promptly advise the DEA of the licensure action. (With respect to suspensions of a finite term, at the conclusion of the term, the licensee may contact the Board office for the return of the documents previously surrendered to the Board. In addition, at the conclusion of the term, ~~the licensee should contact the DEA to advise of the resumption of practice and to ascertain the impact of that change upon his/her DEA registration.)~~

**2. Practice Cessation**

The licensee shall cease and desist from engaging in the practice of medicine in this State. This prohibition not only bars a licensee from rendering professional services, but also from providing an opinion as to professional practice or its application, or representing him/herself as being eligible to practice. (Although the licensee need not affirmatively advise patients or others of the revocation, suspension or surrender, the licensee must truthfully disclose his/her licensure status in response to inquiry.) The disciplined licensee is also prohibited from occupying, sharing or using office space in which another licensee provides health care services. The disciplined licensee may contract for, accept payment from another licensee for or rent at fair market value office premises and/or equipment. In no case may the disciplined licensee authorize, allow or condone the use of his/her provider number by any health care practice or any other licensee or health care provider. (In situations where the licensee has been suspended for less than one year, the licensee may accept payment from another professional who is using his/her office during the period that the licensee is suspended, for the payment of salaries for office staff employed at the time of the Board action.)

A licensee whose license has been revoked, suspended for one (1) year or more or permanently surrendered must remove signs and take affirmative action to stop advertisements by which his/her eligibility to practice is represented. The licensee must also take steps to remove his/her name from professional listings, telephone directories, professional stationery, or billings. If the licensee's name is utilized in a group practice title, it shall be deleted. Prescription pads bearing the licensee's name shall be destroyed. A destruction report form obtained from the Office of Drug Control (973-504-6558) must be filed. If no other licensee is providing services at the location, all medications must be removed and returned to the manufacturer, if possible, destroyed or safeguarded. (In situations where a license has been suspended for less than one year, prescription pads and medications need not be destroyed but must be secured in a locked place for safekeeping.)

### **3. Practice Income Prohibitions/Divestiture of Equity Interest in Professional Service Corporations and Limited Liability Companies**

A licensee shall not charge, receive or share in any fee for professional services rendered by him/herself or others while barred from engaging in the professional practice. The licensee may be compensated for the reasonable value of services lawfully rendered and disbursements incurred on a patient's behalf prior to the effective date of the Board action.

A licensee who is a shareholder in a professional service corporation organized to engage in the professional practice, whose license is revoked, surrendered or suspended for a term of one (1) year or more shall be deemed to be disqualified from the practice within the meaning of the Professional Service Corporation Act. (N.J.S.A. 14A:17-11). A disqualified licensee shall divest him/herself of all financial interest in the professional service corporation pursuant to N.J.S.A. 14A:17-13(c). A licensee who is a member of a limited liability company organized pursuant to N.J.S.A. 42:1-44, shall divest him/herself of all financial interest. Such divestiture shall occur within 90 days following the the entry of the Order rendering the licensee disqualified to participate in the applicable form of ownership. Upon divestiture, a licensee shall forward to the Board a copy of documentation forwarded to the Secretary of State, Commercial Reporting Division, demonstrating that the interest has been terminated. If the licensee is the sole shareholder in a professional service corporation, the corporation must be dissolved within 90 days of the licensee's disqualification.

### **4. Medical Records**

If, as a result of the Board's action, a practice is closed or transferred to another location, the licensee shall ensure that during the three (3) month period following the effective date of the disciplinary order, a message will be delivered to patients calling the former office premises, advising where records may be obtained. The message should inform patients of the names and telephone numbers of the licensee (or his/her attorney) assuming custody of the records. The same information shall also be disseminated by means of a notice to be published at least once per month for three (3) months in a newspaper of

general circulation in the geographic vicinity in which the practice was conducted. At the end of the three month period, the licensee shall file with the Board the name and telephone number of the contact person who will have access to medical records of former patients. Any change in that individual or his/her telephone number shall be promptly reported to the Board. When a patient or his/her representative requests a copy of his/her medical record or asks that record be forwarded to another health care provider, the licensee shall promptly provide the record without charge to the patient.

## **5. Probation/Monitoring Conditions**

With respect to any licensee who is the subject of any Order imposing a probation or monitoring requirement or a stay of an active suspension, in whole or in part, which is conditioned upon compliance with a probation or monitoring requirement, the licensee shall fully cooperate with the Board and its designated representatives, including the Enforcement Bureau of the Division of Consumer Affairs, in ongoing monitoring of the licensee's status and practice. Such monitoring shall be at the expense of the disciplined practitioner.

(a) Monitoring of practice conditions may include, but is not limited to, inspection of the professional premises and equipment, and inspection and copying of patient records (confidentiality of patient identity shall be protected by the Board) to verify compliance with the Board Order and accepted standards of practice.

(b) Monitoring of status conditions for an impaired practitioner may include, but is not limited to, practitioner cooperation in providing releases permitting unrestricted access to records and other information to the extent permitted by law from any treatment facility, other treating practitioner, support group or other individual/facility involved in the education, treatment, monitoring or oversight of the practitioner, or maintained by a rehabilitation program for impaired practitioners. If bodily substance monitoring has been ordered, the practitioner shall fully cooperate by responding to a demand for breath, blood, urine or other sample in a timely manner and providing the designated sample.
